Jesús Manuel Martínez Serpa

Frontend Developer with 1 year of experience and solid technical proficiency in **JavaScript (ES6+)**, **React**, and **Next.js.** Specialized in building robust and scalable interfaces using **TypeScript**, optimizing the development lifecycle and executing agile testing with **Vite.** Expert in **HTML5** and **CSS3** layout, with advanced command of **Git/GitHub** for version control and efficient technical problem-solving.
I hold a B1+ English level tailored to professional environments, with a fluent ability for reading technical documentation and effective communication within development teams. My background in Health Administration provides a methodical and organized profile with a strong capacity for process management. A self-taught professional (trained at Platzi and Udemy) with high adaptability and a focus on high-performance results.

EDUCATION

University of Cordoba, Montería, COR | Currently enrolled
Health Administration:

Health Administration

Comprehensive training in the optimization of operational and strategic processes, with an emphasis on quality auditing and efficient resource management.

I possess an analytical vision for data-driven decision-making and compliance with complex regulatory frameworks.

My administrative approach focuses on the digitization of services and continuous improvement, applying organizational methodologies that guarantee institutional sustainability and efficiency.

University of Cordoba, Montería, COR | Currently enrolled

Bilingual:

English

Currently perfecting my English communication skills through an intensive training program (Monday, Wednesday, and Friday mornings). I possess the ability to understand technical documentation, participate in basicinformation exchanges, and write structured content. Focused onachieving the technical fluency necessary for collaboration ininternational teams and reading software architectures.

Platzy/Udemy, Remote/Online | Completed

Bilingual Frontend Developer:

Web Development (HTML, CSS, JavaScript, React, Next.js, TypeScript)
Bilingual Frontend Developer passionate about interface architecture and problem-solving through clean, scalable code. With technical experience in the JavaScript (ES6+), React, and Next.js ecosystem, I specialize in building robust applications using TypeScript and optimizing workflows and agile testing with Vite.
An expert in HTML5 and CSS3 layout, I transform complex requirements into intuitive, responsive, and high-performance user experiences (UX) and interfaces (UI). Trained under industry standards, I am proficient in using Git/GitHub for version control and possess an accelerated learning mindset that allows me to adopt new technologies efficiently. My focus is on delivering optimized, bilingual, and results-oriented digital products.
